

IN THE SPECIFICATION

Please amend paragraph [0057] as follows:

[0057] Figure 5 is an exploded perspective view of an LED die package 10a in accordance with other embodiments of the present invention. Referring to Figure 5, the light emitting die package 10a of the present invention includes a bottom heat sink (substrate) 20a, a top heat sink (reflector plate) 40a, and a lens 50. An insulating layer 30a of insulating materials may be used to insulate the reflector plate 40a from the bottom heat sink 20a.
